NID Haryana organized a webinar titled "Unravelling the Rich Tapestry of Society: a discourse on the "Settlments in Weaving Clusters of India". Speaker Ms. Shaista Perveen discussed two medieval settlements , Chanderi and Mubarakpur renowned for their traditional weaving practices. These settlements have a rich history of creating textiles using different materials, patterns, and techniques, which are deeply rooted in their traditional ways. The objective of this session was to explore the interconnectedness between the weavers, their ways of life and craftsmanship they practice.

This transformative workshop was conducted by ARK Infosolutions Pvt. Ltd in collaboration with Unity Technologies USA. The workshop witnessed enthusiastic participation from faculty members and students across all the disciplines. Through hands-on sessions, illustrating the universal appeal and relevance of these immersive technologies, it provided an excellent platform for attendees to delve into the exciting and rapidly evolving world of AR and VR. Through hands-on sessions, insightful presentations, and engaging discussions, participants gained a profound understanding of how these immersive technologies are revolutionising numerous industries, from gaming and entertainment to healthcare, education, and beyond.

NID Haryana hosted a webinar on "Functional Clothing" which was conducted by Prof. Deepti Gupta, of Department of Textile and Fibre Engineering, IIT Delhi. Her talk explored the significance of functional clothing as an essential segment of the apparel industry of the future.

Swachhata Hi Sewa Campaign

During "Swachhata Hi Sewa Campaign 3.0, the IT section of NIDH contributed by removing 'Unused carton boxes, packaging material and unwanted scrap' from the IT store during 23.09.2023 to 27.09.2023. The Staff of the institute performed activities like "Shramdaan" and innovative works for control of plastic waste. Wherein, the staff performed activities like collection of plastic waste from different locations, segregated the plastic waste as recyclable and single use plastics, made best out of waste etc.

Being a Design Institute, NID Haryana is putting all efforts on 6R on waste control and disposal i.e Rethink, Refuse, Reduce, Reuse, Recycle, Repair as they are a part of the waste hierarchy which is used to protect the environment and conserve resources through a priority approach. The aim is to get maximum practical benefits from products and to generate the minimum amount of waste.
